Profile

Passionate front end developer and graphic design enthusiast with 3 years of professional experience.

I strive to exceed expectations and pay attention to details.

With experience in graphic design, I am able to communicate with designers easily and exchange ideas when iterations are required.

Education

Reykjavik University, BSc in Computer Science

Aug 2013 – May 2016   📍 Reykjavik

Software development with a focus on web development

Borgarholtsskoli, Associates degree in Natural Sciences and Graphic Design

Aug 2009 – May 2013   📍 Reykjavik

Employment History

Front End Developer, InfoMentor

May 2016 – Nov 2018   📍 Reykjavik

Improved and maintained front-end solutions, by working closely with managers, stakeholders, designers and other developers through Scrum.

I used Knockout.js, React.js, Node.js, HTML, SCSS, ASP.NET MVC and other tools to build stable and reliable solutions.

Highlights:

- Took an active role in deciding front-end technologies amongst other front end developers
- Improved team productivity by creating a custom internal scaffolding tool for React components in Node.js.
- Improved team productivity by creating a custom suite for viewing our Knockout.js components.

Internship, Reykjavik University

Nov 2015 – Dec 2015 📍 Reykjavik

This was a class I finished at RU called "RU-Internship" where students contributed to a new version of the university's intranet, called Centris.

I made Web API, UI design and front-end development contributions to the online exams part of the system.

Courses

Modern React with Redux, Udemy

Jan 2017 – Feb 2017
